

Level 2 Large Goods Vehicle (LGV) Driver

EPA-Kit

Assessment Summary

- Summary of assessment
- Knowledge and Behaviours Test
- Practical Driving Assessment
- Grading
- Retake and resit information

Assessment Summary

The end-point assessment for Large Goods Vehicle (LGV) is made up of 2 components that can be taken in any order, however, we strongly recommend the following:

1. Knowledge and behaviours test where the number of questions could vary per paper but will carry a total of 30 marks with a 1-hour duration; and consist of structured short answer and scenario-based questions (SAQs).
2. Practical driving assessment, which has a 1-hour duration

As an employer/training provider, you should agree a plan and schedule with the apprentice to ensure all assessment components can be completed effectively.

Each component of the end-point assessment will be assessed against the appropriate criteria laid out in this kit, which will be used to determine a grade for each individual component.

Knowledge and behaviours Test

- To achieve a pass, apprentices must achieve 70% which equates to 21 out of 30 marks.
- To achieve a distinction, apprentices must achieve 90% which equates to 27 out of 30 marks.

Practical Driving Assessment

To achieve a pass in the practical driving assessment:

- All pass criteria should be achieved

To achieve a distinction in the practical driving assessment:

- All pass criteria and all of the distinction criteria should be achieved.

Grading

The grade will be made up from the two end point assessment methods; the knowledge test and the practical test. Both elements are equally weighted towards the final grade. The overall grade for the apprentice is determined using the matrix below:

Knowledge and behaviours test	Practical driving assessment	<i>Overall outcome</i>
Pass	Pass	<i>Pass</i>
Pass	Distinction	<i>Pass</i>
Distinction	Pass	<i>Pass</i>
Distinction	Distinction	<i>Distinction</i>

Retake and resit information

Should an apprentice fail 1 assessment activity on the first attempt, a resit should be scheduled as soon as the apprentice is ready, when practicable for the business and in line with the policies, practices and procedures of Highfield.

The resit is normally expected to take place after all the required assessments have been taken and the individual assessment results and overall apprenticeship result has been given to the apprentice.

Should an apprentice fail 2 activities, a period of further training and development lasting between 1 and 3 months must take place before a retake is scheduled. The decision on how much time is required is based on a discussion between the apprentice, their employer and end-point assessor.

Apprentices cannot resit to achieve a higher grade.

Summary of end-point assessments

Knowledge and behaviours Test	Practical Driving Assessment
<p>1-hour test consisting of Short answer and Scenario Based Questions (SAQ's) carrying a total of 30 marks</p> <p>Externally set and marked by an IQA and moderated by Highfield</p> <p>Undertaken under exam conditions either on the employer's premises or off site.</p>	<p>1-hour practical driving assessment will be observed by the end-point assessor who will make a judgement on whether the apprentice is competent to carry out the practical aspects of their job role.</p> <p>The assessment will take place in an LGV and will test the apprentice's practical ability to prepare, drive and control the vehicle in various on-road situations. A simulated scenario as well as questioning by the assessor may be used to collect any evidence they haven't been able to demonstrate over the course of the assessment, so no apprentices are disadvantaged by the nuance of their job role.</p>
<p>To pass, apprentices will achieve 70%</p> <p>To gain a distinction, apprentices will achieve 90%</p>	<p>To pass, apprentices will achieve all pass criteria</p> <p>To gain a distinction, apprentices will achieve all pass criteria and all of the distinction criteria.</p>
	<p>The practical driving assessment will be planned in conjunction with the apprentice and employer and will be subject to internal and external quality assurance.</p> <p>The practical driving assessment will be carried out in 1 session, except in exceptional circumstances (such as a business operating different functions across 2 sites).</p>
