The Highfield Approach

This section describes the approach Highfield has adopted in the development of this end-point assessment in terms of its interpretation of the requirements of the end-point assessment plan and other relevant documents.

Documents used in developing this end-point assessment

Standard (2017)
https://www.instituteforapprenticeships.org/apprenticeship-standards/custody-detention-officer/

End-point assessment plan (May 2018) ST0386/AP01

Specific considerations

The assessment plan makes reference to weightings of 29% for the project and 71% for the professional discussion, however this has not been referenced in this EPA kit as there is no further guidance in the assessment plan on how to apply the weighting.

Professional Discussion
You will be provided with a Dropbox link by your Highfield Employer Engagement Manager to enable you to submit the apprentice’s portfolio for the assessor to review in order to inform the professional discussion.

Where skills, knowledge and/or behaviours are repeated they will be assessed holistically except in critical sections of the professional discussion where, in order to achieve a distinction, they will have to be evidenced in the context of each critical section.

Where behaviours are repeated in the work-based project, these can be evidenced by the inclusion of a single paragraph explaining how each behaviour criteria has been met.
