Specific considerations

On-demand tests - Highfield has used 52 questions and 70% is the pass mark for the on-demand test.

In accordance with the commis chef assessment plan, Highfield has detailed which criteria **MUST** be covered within the culinary challenge and the practical observation respectively at the end of this guide. Additionally, there are some criteria within the assessment plan that had been open for assessment either by culinary challenge, practical observation or professional discussion, within this kit, Highfield has determined which assessment method these criteria will fall within. Wherever possible, all criteria detailed within the culinary challenge or practical observation should be covered within those assessments. However, in some circumstances, some criteria may be 'carried over' to the professional discussion, if they have not been achieved within either the culinary challenge or practical observation.

During the practical observation, wherever possible, situations and evidence should be naturally occurring. However, to ensure that all criteria can be covered, some simulation will be allowed to ensure total coverage of the standards. This can be arranged before the assessment takes place to give the best opportunity for all criteria to be met.

All of the evidence criteria used within this end-point assessment have been taken directly from the commis chef standard: assessment plan.
