How to use this EPA kit

Welcome to the Highfield end-point assessment kit for the Hospitality Supervisor Apprenticeship Standard.

Highfield is an independent end-point assessment organisation that has been approved to offer and carry out the independent end-point assessments for the Level 3 Hospitality Supervisor Apprenticeship Standard. Highfield internally quality assures all end-point assessments in accordance with its IQA process. Additionally, all end-point assessments are externally quality assured by the relevant EQA organisation.

The EPA kit is designed to outline all you need to know about the end-point assessments for this standard and will also provide an overview of the on-programme delivery requirements. In addition, advice and guidance for trainers on how to prepare apprentices for the end-point assessment is included. The approaches suggested are not the only ways in which an apprentice may be prepared for their assessments, but trainers may find them helpful as a starting point.

Highfield also offers the Highfield Hospitality Supervisor Apprenti-kit that is a comprehensive learning resource and is designed to be used on-programme.

For more information, please go to:

<https://www.highfieldproducts.com/products/item/396/level-3-hospitality-supervisor>

Please note that the use of this kit is not a prerequisite for apprentices undertaking the hospitality supervisor end-point assessment.

For employers/training providers that use the Apprenti-kit, a criteria mapping document is available from Highfield if required.

Key facts

Apprenticeship standard:	Hospitality Supervisor
Level:	3
On-programme duration:	Minimum of 12 months
Grading:	Pass/distinction
End-point assessment duration:	Maximum of 2 months
End-point assessment methods:	On-demand test, practical observation, business project, professional discussion

In this kit, you will find:

- an overview of the standard and any on-programme requirements
- a section focused on delivery, where the standard and assessment criteria are presented in a suggested format that is suitable for delivery
- guidance on how to prepare the apprentice for gateway
- detailed information on which part of the standard is assessed by which assessment method
- suggestions on how to prepare the apprentice for each part of the end-point assessment
- a section focused on the end-point assessment method where the assessment criteria are presented in a format suitable for carrying out 'mock' assessments

Introduction

Standard overview

Hospitality supervisors work across a wide variety of businesses including bars, restaurants, cafés, conference centres, banqueting venues, hotels and contract caterers. They provide vital support to management teams and are capable of independently supervising hospitality services and running shifts. They typically work under pressure delivering fantastic customer service and motivating a team is essential to their role. The majority of supervisors' skills and knowledge are the same, but supervisors may specialise in specific functions or work across a variety of functions, which reflects the multi-functional nature of the industry.

Specialist function overview

Front office supervisors coordinate the reception function and, where relevant, reservations in establishments such as hotels, holiday resorts and conferences venues. Central to many operations, the front office supervisor is responsible for ensuring customers' arrivals, time at the establishment and departures are delivered according to an establishment's standards and meet customer expectations.

On-programme requirements

Although learning, development and on-programme assessment is flexible, and the process is not prescribed, the following is the recommended baseline expectation for an apprentice to achieve full competence in line with the hospitality supervisor standard:

Throughout the period of learning and development, and at least every 2 months, the apprentice should meet with the on-programme assessor to record their progress against the standard using on-programme progression documentation. At these reviews, evidence should be discussed and recorded by the apprentice. Once the apprentice is deemed competent, the relevant section(s) of the standard should be signed off by the on-programme assessor and/or the employer with the support of those involved in the learning and development.

The on-programme record and reviews are important to support the apprentice, on-programme assessor and employer in monitoring the progress of learning and development and to determine when the apprentice has achieved full competence in their job role and is ready for independent end-point assessment. A minimum of 6 meetings and completed records are recommended to show ongoing competence across the entire standard, over a minimum of a 12-month period, prior to starting the independent end-point assessment.

Business project proposal

The apprentice required to prepare a business project proposal while on-programme. Once this has been identified by the apprentice, it should be discussed with their employer/training provider. The employer/training provider will then determine whether the proposed project has the potential to meet the criteria of the business project. The apprentice will then prepare a 2-page synopsis of their proposed project to bring to the formal gateway meeting. The proposal must be made available to Highfield Assessment at gateway. Once agreed, this proposal forms the basis for the apprentice's project. For further guidance, see page 43.

Further guidance and support on planning and managing a hospitality supervisor apprentice's training and development journey is available from the Hospitality Apprenticeship Board via People1st.co.uk.

Additional, relevant on-programme qualification

There are no mandatory qualifications for apprentices for this standard. Employers may wish to choose the Highfield Level 3 Diploma in Hospitality Supervision (RQF) to help structure the on-programme delivery.

Readiness for end-point assessment

In order for an apprentice to be ready for the end-point assessments:

- they must have achieved level 2 English and maths and it is recommended that they are digitally literate where this is important to their role.
- they will be required to bring to the gateway meeting a 2-page synopsis of their proposed business research project that will be agreed by the employer representative and put forward as a research proposal at gateway. The independent end assessor and apprentice will review the proposal for the business

project and the apprentice will make any necessary amendments during the first week of the assessment window, then the project may commence.

- the line manager (employer) must be confident that the apprentice has developed all the knowledge, skills and behaviours defined in the apprenticeship standard and that the apprentice is competent in performing their role. To ensure this, the apprentice must attend a formal meeting with their employer to complete the gateway readiness report.
- the apprentice and the employer should then engage with Highfield to agree a plan and schedule for each assessment activity to ensure all components can be completed within a 2-month end-assessment window. Further information about the gateway process is covered later in this kit.

Order of end-point assessments

There are 4 assessment activities for the hospitality supervisor end-point assessment. The on-demand test, practical observation and business project may be undertaken in any order; however, the professional discussion must be the last activity completed. All assessment activities must be completed within 2 months.

The Highfield approach

This section describes the approach Highfield has adopted in the development of this end-point assessment in terms of its interpretation of the requirements of the end-point assessment plan and other relevant documents.

Documents used in developing this end-point assessment

End-point assessment plan (2016 ST0230/AP01)

Common approach People 1st – Edition 2, September 2017

Specific considerations

The on-demand tests consist of 52 questions and have been evenly split into 2 equally weighted sections: 50% (26) of the questions are dedicated to the core subject areas and 50% (26) are on the pathway content. To gain a pass on the test, apprentices will have to achieve a mark of at least 18/26 (approx. 70%) on each section of the exam. To achieve a distinction, apprentices will need to achieve a mark of at least 44/52 (approx. 85%) across the whole exam.

During the practical observation, where possible, situations and evidence should be naturally occurring. While simulation is not permitted, the practical observation should be carefully planned to allow the learners the opportunity to demonstrate all criteria. This may involve planning opportunities for the learner to demonstrate competence against all criteria, e.g. moving to another area of the business to perform a different part of the job role or setting up a situation that allows them to demonstrate a certain skill, produce a sufficient range of products or cover a sufficient range of tasks.

There is an opportunity within the professional discussion for any outstanding pass or distinction criteria that were not demonstrated within the practical observation and business project (and accompanying presentation) to be carried over for assessment in the professional discussion; however, re-assessment must not take place.

If any professional discussion pass criteria have been met in either the observation or business project, re-assessment should not take place in the professional discussion. Professional discussion distinction criteria must all be met as part of the professional discussion.

All of the evidence criteria used within this end-point assessment have been taken directly from the hospitality team supervisor standard: assessment plan, Annex A and F and the common approach document, Appendix A, B and C.

Gateway

How to prepare for gateway

After apprentices have completed their on-programme learning, they should be ready to pass through 'gateway' to their end-point assessment.

Gateway is a meeting that should be arranged between the apprentice, their employer and training provider to determine that the apprentice is ready to undertake their end-point assessment. The apprentice should prepare for this meeting by bringing along work-based evidence, including:

- customer feedback
- recordings
- manager statements
- witness statements

As well as evidence from others, such as:

- mid and end-of-year performance reviews
- feedback to show how they have met the apprenticeship standards while on-programme

In advance of gateway, apprentices will need to have:

- achieved level 2 English
- achieved level 2 maths
- produced the business project proposal

Therefore, apprentices should be advised by employers and providers to gather this evidence and undertake these qualifications during their on-programme training. It is recommended that employers and providers complete regular checks and reviews of this evidence to ensure the apprentice is progressing and achieving the standards before the formal gateway meeting is arranged.

The gateway meeting

The gateway meeting should last around an hour and must be completed on or after the apprenticeship on-programme end date. It should be attended by the apprentice and the relevant people who have worked with the apprentice on-programme, such as the line manager/employer or mentor, the on-programme trainer/training provider and/or a senior manager (as appropriate to the business).

During the meeting, the apprentice, employer and training provider will discuss the apprentice's progress to date and confirm if the apprentice has met the full criteria of the apprenticeship standard during their on-programme training. The **Gateway Readiness Report** should be used to log the outcomes of the meeting and agreed by all 3 parties. This report is available to download from the Highfield Assessment website.

The report should then be submitted to Highfield to initiate the end-point assessment process. If you require any support completing the Gateway Readiness Report, please contact your Employer Engagement Manager at Highfield Assessment.

Please note: a copy of the standard should be available to all attendees during the gateway meeting.

Reasonable adjustments and special considerations

Highfield Assessment has measures in place for apprentices who require additional support. Please refer to the Highfield Assessment Reasonable Adjustments Policy for further information/guidance.

ID requirements

Highfield Assessment will need to ensure that the person undertaking an assessment is indeed the person they are claiming to be. All employers are therefore required to ensure that each apprentice has their identification with them on the day of the assessment so the end-point assessor can check.

Highfield Assessment will accept the following as proof of an apprentice's identity:

- a valid passport (any nationality)
- a signed UK photocard driving licence
- a valid warrant card issued by HM forces or the police
- another photographic ID card, e.g. employee ID card, travel card, etc.

Assessment summary

The end-point assessment for hospitality supervisor is made up of the following 4 components:

1. 90-minute on-demand test consisting of 52 scenario-based questions. 30 minutes of reading time will be given to apprentices before they attempt to provide answers, meaning in total, the apprentice has 2 hours in the test situation.
2. 4-hour practical observation. The observation may be split into two, 2-hour observations, if required, to cover preparation and service.
3. Business project consisting of 2,000 to 5,000 words.
4. 90-minute professional discussion.

The on-demand test, observation and business project may be undertaken in any order; however, the professional discussion must be the last activity completed.

As an employer/training provider, you should agree a plan and schedule with the apprentice to ensure all assessment components can be completed effectively.

Each component of the end-point assessment will be assessed against the appropriate criteria laid out in this kit, which will be used to determine a grade for each individual component.

On-demand test

- The 52-question test is divided into 2 sections – core content and pathway content, each of which contains 26 questions
- In order to achieve a pass, apprentices must achieve a mark of at least 18/26 (approx. 70%) in **each** section.
- To achieve a distinction, apprentices must achieve a mark of at least 44/52 across the whole test (approx. 85%)

Practical observation

In order to achieve a pass in the practical observation:

- all pass criteria should be covered for both core and specialist function areas
- there is a further opportunity to carry over any pass criteria not achieved in the practical observation for assessment within the professional discussion, if required

To achieve a distinction in the practical observation:

- all pass and all distinction criteria should be covered for both core and specialist function areas
- there is a further opportunity to carry over any pass or distinction criteria not achieved in the practical observation for assessment within the professional discussion, if required

Business project

To achieve a pass in the business project:

- the project must meet all pass criteria (either within the written project itself, or within the 30-minute presentation and Q&A)
- there is a further opportunity to carry over any pass criteria not achieved in the business project for assessment within the professional discussion, if required

To achieve a distinction in the business project:

- the project must meet all pass and distinction criteria (either within the written project itself, or within the 30-minute presentation and Q&A)
- there is a further opportunity to carry over any pass or distinction criteria not achieved in the business project for assessment within the professional discussion, if required

Professional discussion

To achieve a pass in the professional discussion:

- all pass criteria must be covered for all relevant areas. Any professional discussion pass criteria that have already been met in the observation or business project do not need to be re-assessed.

To achieve a distinction in the professional discussion:

- all pass criteria and all distinction criteria must be covered for all relevant areas. Professional discussion distinction criteria should all be covered in the professional discussion itself.

Grading

The overall grade for the apprentice is determined using the matrix below:

On-demand test	Business project	Practical observation	Professional discussion	Overall outcome
Pass	Pass	Pass	Pass	Pass
Pass	Pass	Pass	Distinction	Pass
Pass	Pass	Distinction	Pass	Pass
Pass	Distinction	Pass	Pass	Pass
Distinction	Pass	Pass	Pass	Pass
Pass	Pass	Distinction	Distinction	Pass

Distinction	Pass	Distinction	Distinction	Pass
Pass	Distinction	Distinction	Distinction	Distinction
Distinction	Distinction	Distinction	Pass	Distinction
Distinction	Distinction	Distinction	Distinction	Distinction

In summary, to achieve a pass overall, apprentices must achieve at least a pass grade in all 4 assessments (on-demand test, practical observation, business project and professional discussion).

To achieve a distinction overall, apprentices must:

- achieve a distinction in all 4 assessment activities, or;
- achieve a distinction in 3 assessment activities (which **must** include **both** the business project and practical observation) and a pass in the 4th assessment activity (on demand test **or** professional discussion)

Retake and Resit information

Resits

Should an apprentice fail 1 assessment activity **only** on the first attempt (or during a subsequent retake), a resit of that activity should be scheduled as soon as the apprentice is ready, when practicable for the business and in line with the policies, practices and procedures of Highfield.

The resit is normally expected to take place after all the required assessments have been taken and the individual assessment results and overall apprenticeship result has been given to the apprentice. There is no limit on the amount of times an apprentice can resit a single failed activity.

Retakes

Should an apprentice fail 2 or more activities, a retake must take place. A period of further training and development lasting between 1 and 3 months must take place before the retake is scheduled and a new assessment window will be agreed following the period of additional learning. The decision on how much time is required is based on a discussion between the apprentice, their employer and end-point assessor. This further training can begin as soon as a learner's result has been released.

There is no limit on the number of retakes that can take place should the apprentice fail 2 or more activities during subsequent retakes. In the event an apprentice fails 1 activity **only** as part of a retake, a resit of that activity should be scheduled in line with the guidance in the resit section above.

When undertaking a resit or retake, the assessment method(s) will need to be re-attempted in full, regardless of any individual assessment criteria that were passed on any prior attempt. It may be necessary to also re-attempt a 'pre-assessment' activity such as a project submission or proposal, we will advise this on the EPA Report and during the scheduling call. The EPA Report will contain feedback on areas for development and resit or retake guidance.

Apprentices who achieve a pass grade cannot resit or retake the EPA to achieve a higher grade.

Assessing the on-demand test

The following areas (knowledge) of the hospitality supervisor standard will be assessed by a 2-hour (including 30 minutes of reading time) on-demand test consisting of 52 questions, which will be broken down into 2 parts.

Part A will consist of:

- Business
- People
- Customers
- Leadership

Part B will cover:

- Front office supervisor

In each paper, questions will cover each of the areas above, however not every aspect of every area will be covered in every test.

The test is divided into 2 sections, each of which contains 26 questions.

In order to achieve a pass, apprentices must achieve a mark of at least 18/26 (approx. 70%) in **each** section.

To achieve a distinction, apprentices must achieve a mark of at least 44/52 across the whole test (approx. 85%).

Before the assessment

- While on-programme, the employer/training provider should brief the apprentice on the areas to be assessed by the on-demand test
- In readiness for end-point assessment, the apprentice should complete a sample test; a mock test is available for download from the Highfield Assessment website for this purpose

On-demand test criteria

The following pages include the criteria that are covered by the on-demand test.

The apprentice will	Criteria covered in the on-demand test

Assessing the practical observation

The practical observation should be no longer than 4 hours and be pre-planned and scheduled at a time when the apprentice will be in their normal place of work. The observation may be split into 2 sessions of 2 hours each to cover preparation and service, but should normally be carried out in 1 day, except in exceptional circumstances (where an organisation's operating functions are split across 2 sites). Observations must be planned in advance to allow for quality assurance activity.

The end-point assessor will carry out the practical observation, which should enable the apprentice to evidence their skills and behaviour from across the standards to demonstrate genuine and demanding work objectives. Examples of observed practice include handling a general enquiry, dealing with a customer's complaint or a need for further information or detail.

Before the assessment

- The apprentice and employer should provide a 2-week working schedule, including business levels, for the independent end assessor to determine when to carry out observations.
- The independent end assessor will plan the observation in conjunction with the apprentice and employer. The planned observation activity, or series of activities should provide the apprentice with the opportunity to demonstrate each of the required standards have been met. For this standard, this includes, for example:
 - Supervision, and provision of service
 - contact with/supervision of team members
 - direct customer contact.
- During the practical observation, where possible, situations and evidence should be naturally occurring. While simulation is not permitted, the practical observation should be carefully planned to allow the learners the opportunity to demonstrate all criteria. This may involve planning opportunities for the learner to demonstrate competence against all criteria e.g. moving to another area of the business to perform a different part of the job role or setting up a situation that allows them to demonstrate a certain skill, produce a sufficient range of products or cover a sufficient range of tasks.

Employers/training providers should:

- ensure the apprentice knows the date, time and location of the assessment
- brief the apprentice on the activities to be carried out and the duration of the assessment (4 hours)
- ensure the apprentice knows which hospitality supervisor criteria will be assessed (outlined on the following pages)
- encourage the apprentice to reflect on their experience and learning on-programme to understand what is required to meet the standard
- be prepared to provide clarification to the apprentice, and signpost them to relevant parts of their on-programme experience in preparation for their assessment

It is suggested that a mock assessment is carried out by the apprentice in advance of the end-point assessment with the training provider/employer giving feedback on any areas for improvement.

Apprentices will be marked against the pass and distinction criteria included in the tables on the following pages.

Apprentices meeting all pass criteria will be awarded a pass, if all pass and all distinction criteria are met then the result will be a distinction. There is a further opportunity to carry over any outstanding pass or distinction criteria not achieved in the practical observation for assessment within the professional discussion, if required. However, reassessment must not take place.

The professional discussion is time limited, so it is recommended that wherever possible every effort is taken to provide the apprentice with the opportunity to demonstrate how they have met the pass/distinction criteria for the practical observation within the observation itself.

Practical observation mock assessment

It is the employer/training provider's responsibility to prepare apprentices for their end-point assessment and Highfield recommends that the apprentice experiences a mock practical observation in preparation for the real thing. The most appropriate form of mock assessment will depend on the apprentice's setting and the resources available at the time. In designing a mock assessment, the employer/training provider should include the following elements in its planning:

- the mock observation should take place in a real workplace or a realistic simulation if the real workplace does not present all the required assessment opportunities
- the participation of other personnel to play the parts of customers and team members:
 - it is strongly recommended that the mock observation has been practised beforehand and all personnel involved are properly briefed on their roles
 - the roles should provide the opportunity for the apprentice to demonstrate both the 'pass' level and the 'distinction' level criteria
- a 4-hour time slot should be available for the complete practical observation, if it is intended to be a complete mock observation covering all relevant standards; however, this time may be split up to allow for progressive learning
- consider a video recording of the mock assessment, and allow it to be observed by other apprentices, especially if it is not practicable for the employer/training provider to carry out a separate mock assessment with each apprentice
- ensure that the apprentice's performance is assessed by a competent trainer/assessor and that feedback is shared with the apprentice to complete the learning experience; mock assessment sheets are available to download from the Highfield Assessment website and may be used for this purpose.

A suggestion on the split of the 4-hour time slot could be:

- 2 hours to cover preparation, which may include elements of:
 - Business
 - People
 - Customers
 - Leadership
 - Pathway content

- 2 hours to cover service, which may include elements of:
 - Business
 - People
 - Customers
 - Leadership
 - Pathway content

Practical observation criteria

During the practical observation, which will last for 4 hours, the following standards should be evidenced. Apprentices should prepare for the practical observation by considering how the criteria can be met. The apprentice can only achieve a distinction by covering all pass and all of the distinction criteria listed.

To pass, the following must be evidenced	To gain a distinction
Business	
BU8. Ensure all actions are in line with business/brand standard	BU11. Actively promote business/brand standard when briefing team members and monitoring service BU12. Minimise potential disruption by proactively addressing the activities and identifying and addressing issues in advance
BU9. Ensure all activities comply with legal requirements, industry regulations, social responsibility, professional codes and organisational policies/standards	
BU10. Monitor the team during activities to ensure correct performance levels are achieved	

To pass, the following must be evidenced	To gain a distinction
People	
PE6. Brief the team on required activities, setting realistic work objectives	PE8. Plan activities to maximise time and available resources PE9. Ensure communications are efficient, understood and resultant actions undertaken at the appropriate time
PE7. Communicate effectively with team, customers and other departments/stakeholders	

To pass, the following must be evidenced	To gain a distinction
Leadership	
TL3. Provide leadership, supervision and support to the team and its members as required, leading by example to maximise performance	TL4. Identify opportunities to 'go the extra mile' with either customers or in supporting team

To pass, the following must be evidenced	To gain a distinction
Front Office Supervisor	
<p>FO8. Ensure systems are checked and documentation is prepared and ready for arrival/departure of customers</p> <p>FO9. Check reservations/allocations are completed in line with business/brand standards</p> <p>FO10. Process payments and record consumption and keep all records (manual or electronic) up to date and supplied to the correct person</p> <p>FO11. Ensure required records/documentation are accurately completed in line with organisational procedures</p>	<p><i>There are no distinction criteria for this component.</i></p>

Assessing the business project

The purpose of the business project is to give the apprentice the opportunity to demonstrate their wider understanding of the business they are working in and identify and 'think through' how an improvement could be made to the way it operates.

The business project should focus around an opportunity, challenge or idea in line with the scope of the apprentice's day-to-day role. The project should be 2,000 to 5,000 words long and will involve gathering information and making recommendations to management.

The project should demonstrate how the apprentice has:

- understood the context of the business
- maintained an up-to-date knowledge of trends and developments in the hospitality industry/sector
- identified the need for the project, e.g. related to customer feedback, cost efficiency, reputation of the business, increasing market share, increased productivity, etc.
- gathered and reviewed information
- developed realistic business recommendations

Business project proposal

Once the project has been identified by the apprentice, it should be discussed with their employer/training provider. The employer/training provider will then determine whether the proposed project has the potential to meet the criteria of the business project. The apprentice will then prepare a 2-page synopsis of their proposed project to bring to the formal gateway meeting. The proposal must be made available to Highfield Assessment at gateway.

The end-point assessor will subsequently review the proposal and approve it. If for any reason the proposal is not approved, the apprentice must re-submit a revised proposal within 1 week.

The end point assessor will make the following considerations to determine whether the project meets the requirements:

- Does the project focus on an immediate problem, opportunity or idea on which the candidate can develop realistic business recommendations for improvement?

- Does the project allow the apprentice to undertake research and consultation with stakeholders, including gathering and reviewing information?
- Will the apprentice be able to measure improvements and/or benefits to the organisation?

Written project

The written business project must be 2,000 to 5,000 words in length, excluding any annexes.

End-point assessors will only mark projects up to 5,000 words, at which point, they will stop marking and only credit the criteria covered to that point. Projects which fall short of the word count will be marked in full against all criteria.

The project must be accompanied by the written submission sheet which is available to download from the Highfield Assessment website.

The project should follow the structure below.

- Introduction and background:
 - introduction, including how business fit into the hospitality industry
- Focus, aims and objectives:
 - outline of the challenge or opportunity
 - aims and objectives of the project
- Research:
 - evidence of consultation and engagement of stakeholders
 - evidence of effective research
 - how apprentice keeps up to date with trends/changing industry
- Findings:
 - identification of measurable improvements and benefits to the organisation
- Conclusions and recommendations:
 - legislative requirements that have been explained and adhered to
 - an analysis of costs and commercial context
 - justified recommendations for implementation
 - proposed timeframes for implementation

The apprentice should be given sufficient time to undertake the research and writing of the project and allocated the required facilities either within or away from the workplace.

Presentation

Once the written project is completed, it should be submitted to the end-point assessor and employer no less than 7 days before the presentation is scheduled to take place. The project can be submitted to Highfield in any format (uploaded to Dropbox or through e-portfolio) on the day before it is due to be assessed. If using e-portfolio, Highfield must only be able to access the learner's required EPA work (no other work or work from other learners should be accessible). The end-point assessor will review the project and identify any business project criteria that have not been met and need to be followed up in the presentation.

The presentation should take place in a controlled environment either on or off-site, e.g. a quiet room away from the normal place of work with suitable equipment.

Apprentices can choose the most appropriate method to present their project to the assessor, e.g. PowerPoint presentation or interactive demonstration. The apprentice can take supplementary material into the presentation, e.g. photos, video clips, figures and brochures to help them communicate their research and recommendations. Apprentices will have 30 minutes to deliver the presentation, which includes time for questions and answers at the end.

There is a further opportunity to carry over any outstanding pass or distinction criteria not achieved in the business project (and accompanying presentation) for assessment within the professional discussion, if required. However, reassessment must not take place.

The professional discussion is time limited, so it is recommended that wherever possible, every effort is taken to provide the apprentice with the opportunity to demonstrate how they have met the pass/distinction criteria for the business project within the project itself and the presentation with accompanying Q&A session.

Business project criteria

The apprentice can achieve a pass grade in the business project by meeting all of the business project assessment criteria in the table below. A distinction can be achieved if all distinction assessment criteria outlined below are met, in addition to the pass criteria.

Business project	
Pass criteria	Distinction criteria
Introduction and background	
BP1. Give a general introduction and background to department, team or area of work, including how this relates to the rest of the business unit (if applicable)	BP14. <i>Give a detailed introduction and background of the department, team or working area wider business unit (e.g. other departments, head office, local community / customer profile)</i>
BP2. Explain how the business fits into the hospitality industry	
Focus, aims and objectives	
BP3. Outline the problem, challenge or opportunity identified	BP15. <i>Outline the current situation which has led to the identification of a challenge or opportunity</i>
BP4. State the aims and objectives of the project	BP16. <i>Provide detailed aims and objectives for the project, linking to the current situation</i>
Research	
BP5. Consult relevant stakeholders (e.g. customers, team members, managers) to inform the results and recommendations	BP17. <i>Show a range of research has been used effectively, including obtaining information from stakeholders, such as team members, management, suppliers or customers</i>
BP6. How the apprentice keeps up to date with trends and the changing industry	
BP7. Provide research methodology to demonstrate a logical, coherent approach	BP18. <i>Show a range of qualitative and quantitative research has been used effectively</i>
Findings	
BP8. Identify how the potential changes would lead to measurable improvements and benefits to the department, team or area of working	BP19. <i>Identification of measurable improvements and benefits to the organisation</i>

Conclusion and recommendations	
BP9. Make clear recommendations for implementation	BP20. <i>Make detailed recommendations for implementation, including timings and potential costs</i>
BP10. Provide an indication of costs associated with the proposed recommendations	
BP11. Concise validation and justification of recommendation	BP21. <i>Provide detailed validation and justification of recommendations</i>
BP12. Identify applicable legislation and ensure the proposal complies where necessary	BP22. <i>Review the project to ensure it meets organisational and legal requirements</i>
BP13. Demonstrate an awareness of and understanding for the need for deadlines	BP23. <i>Proposed timeframes for implementation</i>

Assessing the professional discussion

The professional discussion will be a structured discussion between the apprentice and the end-point assessor. The employer should be present to support, but not lead, the apprentice and to confirm information. The professional discussion should take place after the practical observation to establish the apprentice's understanding and application of the remaining knowledge, skills and behaviours. The professional discussion will need to take place in a suitable environment and should last for 90 minutes. The discussion will be against the set criteria that is outlined in the following pages and it also provides an opportunity for any outstanding pass or distinction criteria that were not demonstrated within the practical observation and business project to be carried over for assessment in the professional discussion. It will be appropriately structured to draw out the best of the apprentice's energy, enthusiasm, competence and excellence.

The purpose of the professional discussion is to clarify any questions the end-point assessor has for specified standards:

- confirm and validate judgements about the quality of work
- explore aspects of the work, including how it was carried out, in more detail
- discuss how the apprentice would behave in specific scenarios, should they not have occurred within the practical observation
- ask questions in relation to personal development and reflection
- provide a basis for the end-point assessor to make a decision about the grade to be awarded

Structure of professional discussion

- A review of the period of learning, development and continuous assessment (recommend 30 minutes). This should include a 15-minute summary of how the apprentice feels they have performed during their programme, the highlights and lowlights and any key lessons learned, followed by a further 15 minutes for questions and answers.
- Coverage of the specific areas of assessment for professional discussion and an opportunity for any outstanding pass/distinction criteria that were not demonstrated within the practical observation or business project to be carried over for assessment within the professional discussion (recommend 30 minutes).
- Personal development and self-reflection (recommend 30 minutes). This should focus on the personal development areas of the standard and is an opportunity for the apprentice to sum up how they have developed their personal skills over

the course of their apprenticeship and what they would like to do in future to continue their development.

Before the assessment

Employers/training providers should:

- plan the professional discussion to allow the apprentice the opportunity to demonstrate each of the required standards
- ensure the apprentice knows the date, time and location of the assessment
- ensure the apprentice knows which hospitality supervisor criteria will be assessed (outlined on the following pages)
- encourage the apprentice to reflect on their experience and learning on-programme to understand what is required to meet the standard
- be prepared to provide clarification to the apprentice and signpost them to relevant parts of their on-programme experience as preparation for this assessment

It is suggested that a mock assessment is carried out by the apprentice in advance of the end-point assessment with the training provider/employer giving feedback on any areas for improvement.

Apprentices will be marked against the pass and distinction criteria included in the tables on the following pages. Apprentices meeting all pass criteria will be awarded a pass, and if all of the distinction criteria are also met the result will be a distinction.

If any pass criteria have been met in either the observation or business project, reassessment should not take place in the professional discussion. Distinction criteria must all be met as part of the professional discussion.

Professional discussion mock assessment

It is the employer/training provider's responsibility to prepare apprentices for their end-point assessment, and Highfield recommends that they experience a mock professional discussion in preparation for the real thing. The most appropriate form of mock assessment will depend on the apprentice's setting and the resources available at the time.

When designing a mock assessment, the employer/training provider should consider the following elements in their planning:

- a 90-minute time slot should be available to complete the professional discussion, if it is intended to be a complete mock assessment covering all relevant standards, however, this time may be split up to allow for progressive learning
- consider an audio recording of the mock and allow the mock to be observed by other apprentices, especially if it is not practicable for the employer/training provider to carry out a separate mock assessment with each apprentice
- ensure that the apprentice's performance is assessed by a competent trainer/assessor and that feedback is shared with the apprentice to complete the learning experience; mock assessment sheets are available to download from the Highfield Assessment website and may be used for this purpose.
- structured 'open' questions should be used as part of the professional discussion that do not lead the candidate but allows them to express their knowledge in a calm and comfortable manner, some examples of this may include the following:
 - Business
 - How do you keep up to date with industry developments and trends?
 - People
 - Explain how you ensure effective management of team members
 - Customers
 - How do you support the development of a customer-centric culture?
 - Leadership
 - How do you evaluate own performance and identify and act upon areas for improvement?

Professional discussion criteria

Throughout the 90-minute professional discussion, the assessor will review the apprentice's competence in all of the pass criteria outlined below as a minimum, therefore apprentices should prepare for the professional discussion by considering how the criteria can be met. The apprentice can only achieve a distinction by covering all of the distinction criteria, which are outlined in the distinction column. Apprentices should clearly articulate examples from the workplace relevant to evidencing competence across the standard.

To pass, the following must be evidenced	To gain a distinction
Business	
<p>BU13. Explain the importance of keeping up to date with current industry trends and provide examples of how this has been achieved</p> <p>BU14. Explain why it is essential to instil the importance of company vision, values, empowerment and following procedures to staff and how you can achieve this</p> <p>BU15. Provide reasoned examples of how the hospitality department operates efficiently</p> <p>BU16. Evidence effective day to day supervision of the team/department and how this leads to customer satisfaction and ensures business performance</p> <p>BU17. Describe how the hospitality department meets regulatory requirements</p> <p>BU18. Clearly articulate examples from the workplace relevant to evidencing competence across the standard</p>	<p>BU19. Proactively keeps up to date with industry developments, trends and business objectives</p> <p>BU20. Describe how recommendations for the improvement of quality, cost, value or efficiency have been made in the organisation</p> <p>BU21. Explain how effective hospitality supervision, contingency planning, motivation and adherence to company/brand standard have been developed and implemented and how this has decreased waste and increased overall team/departmental performance</p> <p>BU22. Demonstrate how a proactive approach to planning and supervision has been implemented, including proactively educating and monitoring staff on customer service, brand standards, health and safety and risk matters beyond the legislative minimum</p>

To pass, the following must be evidenced	To gain a distinction
People	
<p>PE10. Provide examples of how staff are managed effectively in line with legal requirements and organisation's policies and procedures, including motivation, training and development of teams and individuals,</p> <p>PE11. Provide evidence to show you have been part of the effective planning and review in the team</p>	<p>PE12. Provides mentorship to team members with measurable improvements to the performance of individuals and the team</p>

To pass, the following must be evidenced	To gain a distinction
Customers	
<p>CU3. Provide an overview of how the hospitality department meets the needs of the business and customer</p>	<p><i>There are no distinction criteria for this component.</i></p>

To pass, the following must be evidenced	To gain a distinction
Leadership	
<p>TL5. Provide an effective evaluation of own performance, including behaviours, identifying where opportunities for improvement have been taken and results there of evaluated</p> <p>TL6. Demonstrate how feedback has been sought from managers and customers and how this has been effectively dealt with</p>	<p>TL7. Provide examples of when improvement activities have been actively sought to develop own performance to raise standards in team performance, reaching objectives and customer service</p> <p>TL8. Proactively invite feedback from all stakeholders and use this to develop and implement measurable improvements in performance of self and team</p>
